Women

Our Mother give love to the children
even if mothers are poor she still
gives thier children the love. Even if
she is sick. she gives me money again and
love. Thank you women.

If mom is poor is love me
If father left my mother in poverty
still they try to protect us
Oh poor mum they bried and killed
My father.

Oh poor women when father is drunk
Mother gets poor. Men dont abuse women.
I like to thank you women
