HIV & AIDS

It is you who takes Our mother and  
Sisters. You destroy Our lives.  
We don't know where to hide.  
We are stranded we are afraid,  
Of having a babies. When getting  
married.

Oh! HIV & AIDS where do you come from?.

Generation no more!  
Soon the nation will be gone because of you.  
We are facing misery and empty hours.  
Let us fight for their life.  
HIV & AIDS you are evil.

Some of poor children there is no mom  
because of you.  
please don't make fool on us.  
You are evil. Our families cried of you.  
My Country let us fight for HIV & AIDS.
