

30 October 2009

Fathers

It is them who left us in poverty

It is them who don't like us even our mothers

It is them who abuse our mothers

It is them who kill our mothers

If someone call you father

It like playing a game

because you don't have problem about what we want

Or what will be our future one

One thing you know is making our mothers pregnant

And live them in poverty with no food and no money

Our mothers became prostitute because of our fathers

Our mothers they are prostitute cause they want to feed us

And want to make us proud about them

Because you don't care about us

Mens are not person especially father they look like dogs
